City map

The **red** pointer is showing the location of the school.

The **green** arrow is pointing North, the direction we will go during the full-day trip.

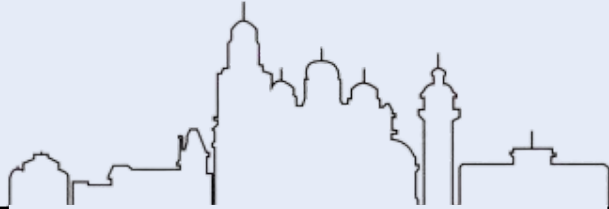

The **yellow** area, is the part of the city we recommend you to visit during your free time.

A

Good to know

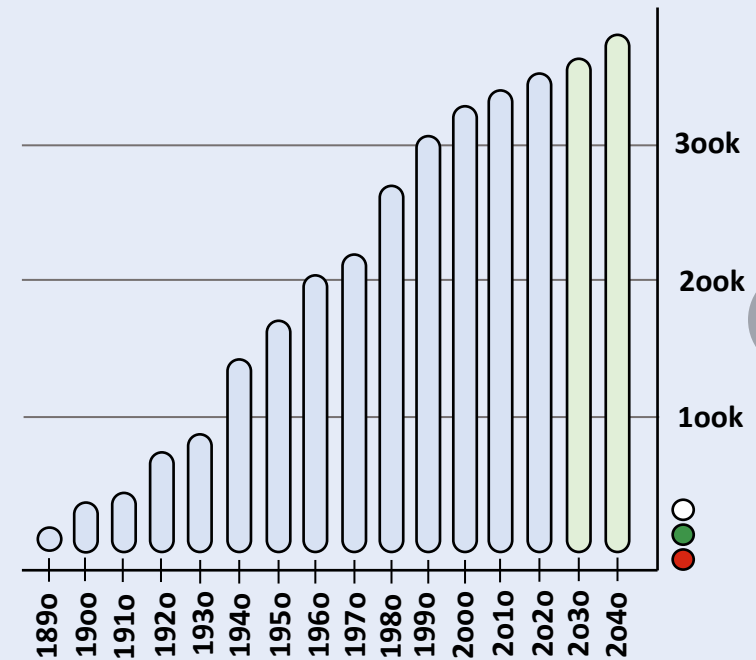

During the summer season, the population of the city could increase to 1,6 million people, surpassing the capital and becoming the most populated place in the country. That is why, people often call it – “the sea capital of Bulgaria”.

Population | 350 000

Total area | 238 km²

Tourists | 3,9 million

Population (1890-2040)

A

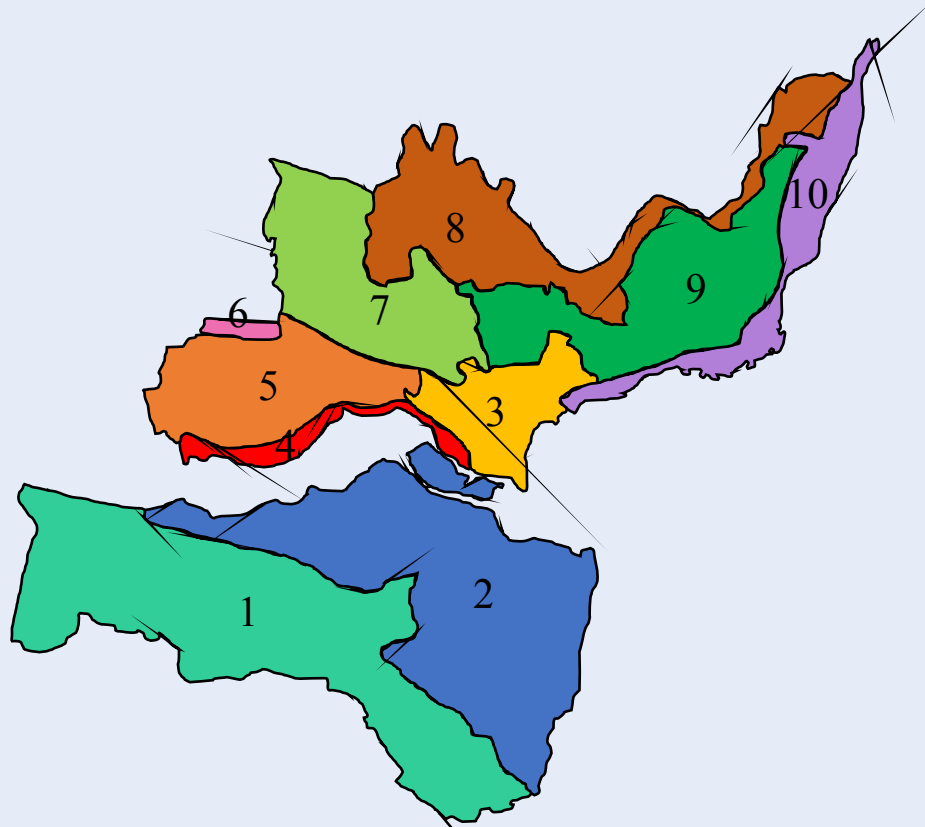

Illustration of Varna's districts and regions

The most populated region[3], bears the old name of the city - Odesos

Why to visit?

On the territory of the city, was found the oldest processed gold in the world.

The above-mentioned and many other artifacts and antiques contribute to the city's remarkable past.

Varna is home to many, one of a kind destinations for the Balkan peninsula, such as the Dolphinarium. The biggest historical park is also nearby.

Up to 95% of all students, who graduate our school continue to study in university.

Our school is famous with it's innovative methods of teaching, such as using multimedia.

Our school is equipped with many devices, such as computers, laptops, interactive boards, etc.

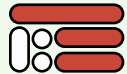

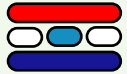

From next school year onwards, most of the study supplies will become free for all students.

Despite many people considering the educational system for too high-maintenance, we managed to make all lessons more interesting for the students.

Students from our school manage to enter some of the most prestigious universities in the world. Mainly in UK, Bulgaria, Italy, Germany and many more.
